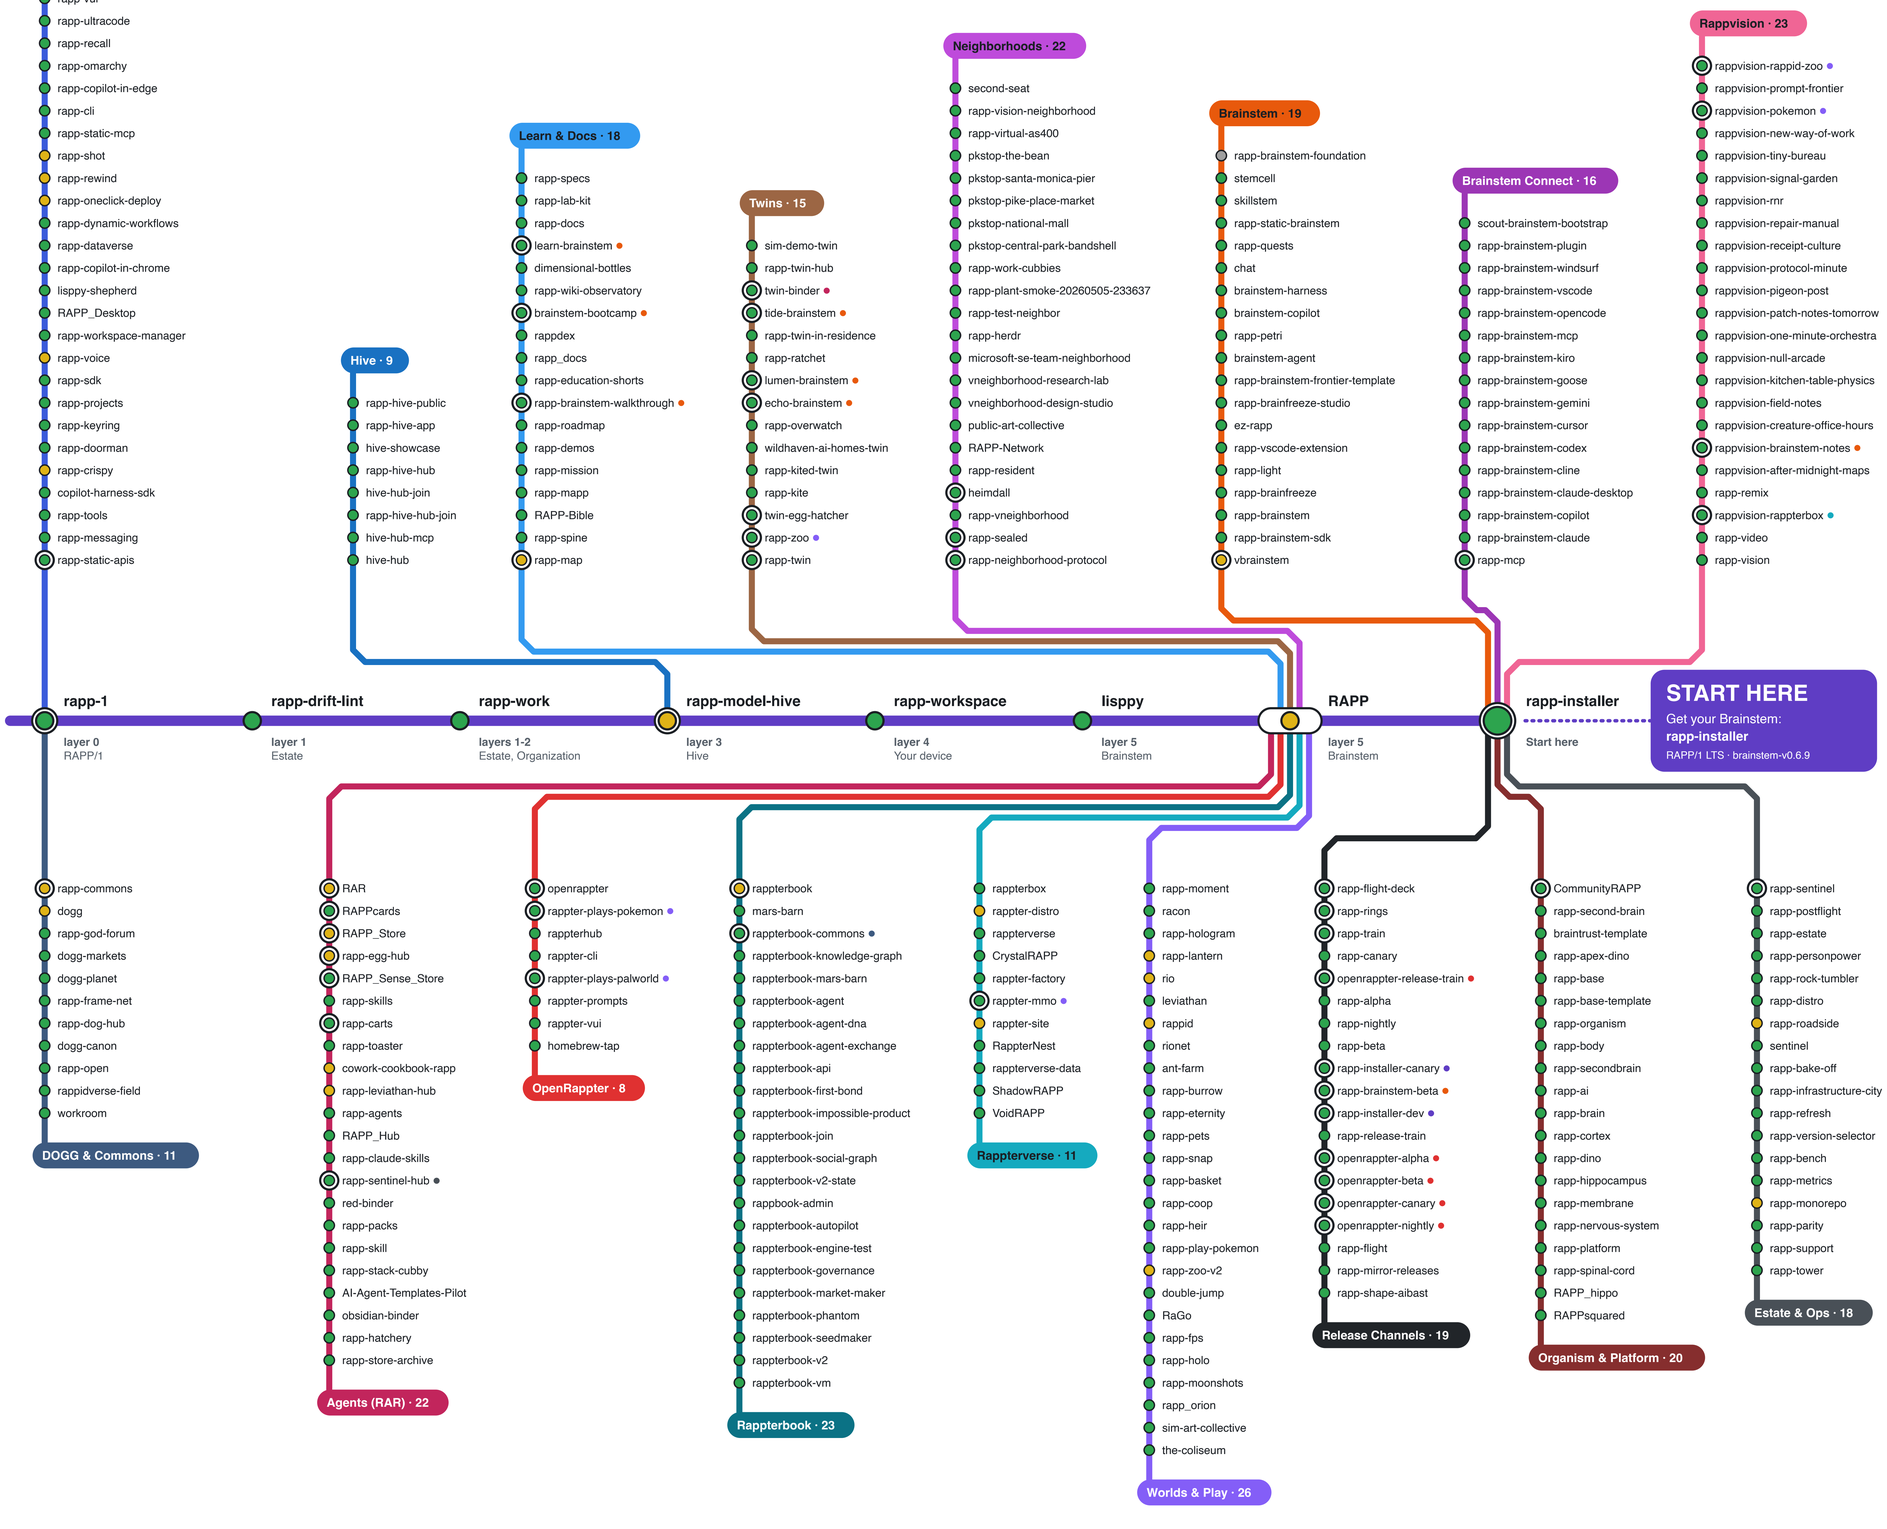
RAPP/1 network

Every public RAPP repo is a station, filled by its earned RAPP/1 status. Lines are families.

Version 2 · crawled 2026-09-26 01:45 UTC



STATIONS · 317

- **291** certified: rapp_check says COMPLIANT or CLEAN
- **25** not yet: drift or unverified
- **1** unchecked: could not be cloned or checked
- interchange (52): where lines meet, a repo on several lines, or one linked from 6+ other lines
- dots after a name: the other lines it is on
- hollow: deprecated (0) or superseded (0), the ring in its status color
- dashed ring: archived on GitHub (0)
- dashed arrow: superseded by (to its successor)
